### about the harvest

Grapes are picked by hand.

### in the cellar

Grapes are picked by hand and then whole bunch pressed without the use of Sulphur. The juice is left 1 day to settle before racking it to barrels and leaving it to naturally ferment until dry. The wine is stirred once a month and kept in the 300/400 and 500L barrels for almost a year before sulphuring up and bottling it. The RS is natural sugar which did not ferment dry.
